Please reject the n.a.b.'s petition 04-160.xm radio is the best entertainment on the market it allows me to listen to a variety of things that aren't available elsewhere and it's affordable. Traffic isn't an issue where I live but if I chose to listen to it and pay for it that is my right as an AMERICAN!! PLEASE quit infringing on my rights. I used to listen to public radio untill the whole Janet Jackson thing forced my favorite show to change the way do things(The Bob and Tom Show). You have already made me make changes to my listening habits once this year. Please dont do it twice. I guess I could be at home glued to the television drawing un employment and lots of other government programs instead of being out on the road trying to make a contribution to society.
